

Faculty of Economics and Management

A faculty renowned for excellence in economics, management, public administration, entrepreneurship, and informatics.

Vibrant community: Encompassing over 9,000 students.

Cutting-edge facilities: State-of-the-art resources support academic excellence and practical learning.

Expansive programmes: Explore diverse study options and global internships and international studies opportunities.

Focus on innovation: Specialising in contemporary job market-driven fields, aligning education with industry needs.

Career-ready graduates: Prepared for roles in operational and strategic management, financial services, analytics, marketing, accounting, and entrepreneurship.

Did you know that...

- PEF developed a unique Human Behavior Research Unit with multiple laboratories (e.g. collaborative usability lab and a virtual reality lab)
- PEF students can join a Double Degree programme, in which half of the studies are held at CZU and the other half at a partner university abroad. The graduate then gains 2 diplomas from both universities.

Study Programmes Taught in English Academic Year 2024–2025

Bachelor's Programmes

- Business Administration
- Economics and Management
- Informatics

Master's Programmes

- Business Administration
- European Agrarian Diplomacy
- Economics and Management
- Global Information Security Management
- Informatics
- International Trade and Business

PhD Programmes

- Economics and Economics of Enterprise
- Management
- Regional and Social Development
- Systems Engineering and Informatics

Tuition fees

Study Programmes	Annual fee in CZK	Annual fee in EUR*
Bachelor's degree programmes		
Business Administration	65 000	2 600
Economics and Management	40 000	1 600
Informatics	50 000	2 000
Master's degree programmes		
Business Administration	108 000	4 320
Economics and Management	42 000	1 680
European Agrarian Diplomacy	25 000	1 000
Global Information Security Management	135 000	5 400
Informatics	55 000	2 200
International Trade and Business	42 000	1 680
PhD degree programmes	135 000	5 400

* The tuition fee is paid in CZK, so the amount in EUR is variable, based on the exchange rate at the time of the tuition payment. (15. 11. 2023, 1 EUR = 25 CZK).

Faculty of Agrobiography, Food and Natural Resources

Diverse focus on life protection, bridging traditional and emerging life preservation sectors.

Dynamic community: Hosting over 4,000 students, fostering a vibrant atmosphere for innovation.

Expansive programmes: Diverse study paths from agricultural production, food and use of natural resources to waste management.

Unique facilities: The campus boasts specialised sites, including greenhouses, a dendrology park, and a canine research centre, promoting hands-on learning.

Global research engagement: Opportunities for students to participate in international research projects during advanced studies.

Versatile career outcomes: Graduates excel in government and regional institutions, research centres, and entrepreneurial ventures within their expertise.

Did you know that...

- The faculty opened up a new Food Processing Training Center on the CZU campus.
- It participates in METROFOOD – a large EU research infrastructure that promotes scientific excellence in the field of food quality and safety, chairing its Czech unit.

Study Programmes Taught in English Academic Year 2024–2025

Bachelor's Programmes

- Agriculture and Food
- Sustainable Use of Natural Resources

Master's Programmes

- Erasmus Mundus Danube Agrifood Joint Master's Degree
- Natural Resources and Environment
- Natural Resources Management and Ecological Engineering
- Sustainable Agriculture and Food Security

PhD Programmes

- Agricultural and Forestry Phytopathology and Plant Protection
- Agricultural Chemistry
- Animal Science (formerly General Animal Science)
- Applied Animal Science (formerly Special Animal Science)
- Crop Science (formerly Special Crop Science)
- Exploitation and Protection of Natural Resources
- Nutrition and Food
- Plant Sciences (formerly General Crop Science)

Tuition fees

Study Programmes	Annual fee in CZK	Annual fee in EUR*
Bachelor's degree programmes		
Agriculture and Food	57 000	2 280
Sustainable Use of Natural Resources	42 000	1 680
Master's degree programmes		
Erasmus Mundus Danube Agrifood Joint	Scholarship/Tuition fee waived status	
Natural Resources and Environment	84 000	3 360
Natural Resources Management and Ecological Engineering	114 000	4 560
Sustainable Agriculture and Food Security	114 000	4 560
PhD degree programmes	13 000	480

* The tuition fee is paid in CZK, so the amount in EUR is variable, based on the exchange rate at the time of the tuition payment. (15. 11. 2023, 1 EUR = 25 CZK).

Faculty of Engineering

Study Programmes Taught in English Academic Year 2024–2025

Bachelor's Programme

- Agricultural Engineering

Master's Programmes

- Agricultural Engineering
- Technology and Environmental Engineering

PhD Programme

- Engineering of Agricultural Technological Systems

The faculty encompasses diverse study fields, from precision farming to renewable energy sources, centred around agricultural engineering.

Community of over 1,000 students.

Diverse study fields: Including precision farming, renewable energy sources, agricultural engineering, statistics, agro-materials, and more.

Focus on agricultural engineering: Laying the groundwork in agricultural technology theory, a stepping stone for advanced studies in technical and biological sciences.

Cutting-edge research: Exploring field robotics, precision farming, automation, logistics, and sustainability.

Versatile graduates: Skilled in solving agricultural challenges with modern technological systems. Prepared for national and international roles in industry, civil services, machinery-related business, and technical development. Proficient in sensoric methods, communication techniques, and computer technology.

Did you know that...

- Students may join the CZU Prague hybrid Formula Racing team.
- Our researchers developed a new generation of photovoltaic panels for extreme climatic conditions.

Tuition fees

Study Programmes	Annual fee in CZK	Annual fee in EUR*
Bachelor's degree programme	15 000	600
Master's degree programmes	15 000	600
PhD degree programme	90 000	3 600

* The tuition fee is paid in CZK, so the amount in EUR is variable, based on the exchange rate at the time of the tuition payment. (15. 11. 2023, 1 EUR = 25 CZK).

Faculty of Forestry and Wood Sciences

Thriving educational environment, preparing students for diverse challenges in the ever-evolving field of forestry and environmental management.

Community with over 2,000 students.

Education: Delve into silviculture, rational forest resource management and timber utilization.

Multifaceted focus: Explore bio-ecological, technical, and socio-economic facets of forestry, renowned globally for pioneering scientific research.

High-Tech Pavilion: This cutting-edge faculty centre stands as one of Central Europe's finest, offering education aligned with technological advancements and modern equipment for students and scientists.

CZU Forests: An extensive collection of global hunting grounds and fish ponds at Kostelec nad Černými lesy, providing invaluable practical experience for students.

Versatile career prospects: Graduates are well-prepared for careers in forestry, wood processing industries, state forest management, or environmental protection agencies.

Study Programmes Taught in English Academic Year 2024–2025

Bachelor's Programme

- Forestry; specialized in Forest Ecosystems, Protection and Silviculture

Master's Programme

- Forest Science in Global Change
- Forestry, Water and Landscape Management

PhD Programmes

- Applied Geoinformatics and Remote Sensing in Forestry
- Economics and Management of Forestry and Wood Industry
- Fire Protection of Forests, Timber and Wood-based Materials
- Forest Biology
- Forest Management
- Forest Protection and Game Management
- Global Change Forestry
- Silviculture
- Wood Processing and Forest Machinery

Did you know that...

- FLD has state-of-the-art modern equipment for forestry and wood industry.
- There is a possibility of being granted multiple different scholarships.

Tuition fees

Study Programmes	Annual fee in CZK	Annual fee in EUR*
Bachelor's degree programme	40 000	1 600
Master's degree programme		
Forest Science in Global Change	90 000	3 600
Forestry, Water and Landscape Management	25 000	1 000
PhD degree programmes	15 000	600

* The tuition fee is paid in CZK, so the amount in EUR is variable, based on the exchange rate at the time of the tuition payment. (15. 11. 2023, 1 EUR = 25 CZK).

Faculty of Environmental Sciences

The leading institute in adapting landscapes to reduce the impact of changing climates. With a respected multidisciplinary approach, the faculty responds to global challenges, modern educational trends and the demand for practice.

Thriving community of over 2,700 students, fostering a new generation of professionals geared to tackle environmental challenges.

Multifaceted research: Focused on environmental management, evaluating human ecological impact, and implementing effective remedial measures.

Versatile graduates: Equipped for careers in local and international environmental and research institutions, governmental agencies, project management, and consultancy.

Join us at the forefront of environmental adaptation, where an innovative approach and research will prepare you to shape a sustainable future in a swiftly changing world.

Study Programmes Taught in English Academic Year 2024–2025

Bachelor's Programmes

- Environmental Data Science
- Environmental Engineering

Master's Programmes

- Environmental Geosciences
- Environmental Modelling
- Land and Environmental Engineering (double degree)
- Landscape Planning
- Nature Conservation

PhD Programmes

- Applied and Landscape Ecology
- Ecology
- Environmental Earth Sciences; specialization in Environmental Modelling, Spatial Planning and Geoenvironmental Sciences

Did you know that...

- Environmental professionals are - and will be - more in demand than ever before. Become one of them.
- We co-operate with the most important environmental agencies and NGOs on hot global issues. Join us.
- We transfer our highly applicable knowledge into practice. See for yourself.

Tuition Fees

Study Programmes	Annual Fee in CZK	Annual Fee in EUR*
Bachelor's degree programmes	15 000	600
Master's degree programmes	25 000	1 000
PhD degree programmes	5 000	200

* The tuition fee is paid in CZK, so the amount in EUR is variable, based on the exchange rate at the time of the tuition payment. (15. 11. 2023, 1 EUR = 25 CZK).

Faculty of Tropical AgriSciences

This faculty is the only institution in Czechia dedicated to tropical agriculture and the advancement of tropical regions.

Vibrant community: Over 650 students committed to agriculture, rural development, and sustainable resource management in tropical regions.

Engaged in impactful initiatives: Actively involved in education, research, and projects fostering socio-economic and technological growth in low-income countries.

Career pathways: Alumni equipped for international research, roles in food and cosmetics industries, NGO-driven service, and education.

Study Programmes Taught in English Academic Year 2024–2025

Bachelor's Programme

- International Cooperation in Agriculture and Rural Development

Master's Programmes

- Agricultural Sciences and Farming Systems in the Tropics and Subtropics (double degree)
- Agri-food Systems and Rural Development
- Erasmus Mundus Joint Master in Global Forestry (multiple degree)
- International Development and Agricultural Economics

- Tropical Agroecology (online)
- Tropical Crop Management and Ecology
- Tropical Farming Systems
- Tropical Forestry and Agroforestry
- Wildlife and Livestock Production, Management and Conservation

PhD Programmes

- Agriculture in Tropics and Subtropics
- Sustainable Rural Development
- Tropical Agrobiology and Bioresource Management

Did you know that...

- The FTZ prides itself on its "Fair Trade Faculty" label
- The FTZ has its own Botanical Garden with tropical and subtropical crops and plants and a farm with more than 50 antelopes and 20 llamas

Tuition fees

Study Programmes	Annual fee in CZK	Annual fee in EUR*
Bachelor's degree programme	11 000	440
Master's degree programmes		
Agricultural Sciences and Farming Systems in the Tropics and Subtropics (double degree)	40 000	1 600
Agri-food Systems and Rural Development	8 000	320
Erasmus Mundus Joint Master in Global Forestry (multiple degree)	Scholarship/ Tuition fee waived status	
International Development and Agricultural Economics	8 000	320
Tropical Agroecology (online)	110 000	4 400
Tropical Crop Management and Ecology	8 000	320
Tropical Farming Systems	60 000	2 400
Tropical Forestry and Agroforestry	8 000	320
Wildlife and Livestock Production, Management and Conservation	8 000	320
PhD degree programmes		
Agriculture in Tropics and Subtropics	80 000	3 200
Sustainable Rural Development	6 000	240
Tropical Agrobiology and Bioresource Management	6 000	240

* The tuition fee is paid in CZK, so the amount in EUR is variable, based on the exchange rate at the time of the tuition payment. (15. 11. 2023, 1 EUR = 25 CZK).

Institute of Education and Communication

Graduates find jobs not only as teachers, but also as career and educational counsellors and counsellors in human resources management. Studies in specialised subject areas for teachers are also open for local CZU students, which represents an important competitive advantage for them.

The Institute of Education and Communication provides courses taught in the Czech language. However, English consultations after an agreement with the IEC coordinator may be offered, too.

Institute of Education and Communication (IEC) is an independent university unit that provides studies in pedagogy and career guidance. IEC offers bachelor's study programmes of Pedagogy for Teachers of Practical Training and Career Guidance, Counselling and Education. Students gain competencies in pedagogy, psychology, educational process management or career counselling.

Courses are also offered in Life Long Learning programmes, focusing on pedagogical qualification for teachers and counsellors in secondary vocational schools.

Research focuses on local and international projects related to education, counselling and sustainable development. On behalf of CZU, IEC organises regular internal evaluations of the quality of educational processes at CZU (Quality Assurance). Furthermore, IEC coordinates courses of the University of the 3rd Age at CZU (U3A).

Did you know that...

- Parallel to their specialisation, students from all the CZU faculties can acquire a second qualification by graduating in the IEC concurrent study programme focused on "Teaching vocational subjects at secondary schools and apprentice vocational schools".
- IEC coordinates activities of the Counselling Centre for Students with Special Needs, offering practical assistance, such as accompanying, tutoring, study support etc.
