

STUDY AT THE CZECH UNIVERSITY OF LIFE SCIENCES PRAGUE

University full of life

THE LARGEST LIFE SCIENCE UNIVERSITY IN CZECHIA and the 2nd largest university in Prague

A MEMBER OF THE EUROLEAGUE FOR LIFE SCIENCES – a network of top life sciences European universities

21 000 STUDENTS. 6 faculties and 1 institute.

25 % OF STUDENTS ARE INTERNATIONAL (around 5 500)

10 BACHELOR'S, 26 MASTER'S and **27 PHD STUDY PROGRAMMES** taught in English

THE MOST SUSTAINABLE CAMPUS IN CZECHIA, according to UI Green Metric World University Ranking 2022

ALL IN ONE PLACE ON AN AMERICAN-STYLED CAMPUS – school and research facilities, residence halls and canteen, sports amenities and much more

OVER 250 INTERNATIONAL PARTNER UNIVERSITIES. Options for Double and Joint Degree programmes, exchange programmes, traineeships, and summer schools

THE ONLY UNIVERSITY IN CZECHIA FOCUSING ON TROPICAL AGRICULTURE, forestry and sustainable development in the tropics and subtropics

THE EMPLOYMENT RATE OF CZU GRADUATES IS 98.6 % (2023)

POSSIBILITIES FOR MERIT AND ACCOMMODATION SCHOLARSHIPS

The Faculty of Economics and Management of CZU Prague is a modern scientific and educational institution receiving more than 10,000 applications yearly. The faculty offers students a wide range of optional subjects and the possibility of using Erasmus+ or CEEPUS foreign mobility programmes in cooperation with partner schools worldwide. Various sports and scientific events for students and employees take place every year, all thanks to the modern facilities of CZU, which match the quality of renowned European universities.

Study programmes taught in English in the academic year 2024/2025

This internationally renowned faculty is an educational and scientific research institution that goes beyond traditional agriculture through embracing emerging sectors in fields such as food security, natural resources, plant protection, waste management and many more. The faculty offers unique double degree and joint degree master programmes, with the possibility to explore other countries and gain international experience. At the heart of it all, the cutting-edge facilities, from labs through greenhouses to the training centre for food processing, ensure that practical learning is at the core of the study programmes.

Study programmes taught in English in the academic year 2024/2025

Bachelor's programmes

■ AGRICULTURE AND FOOD

Application period: 12 October 2023 → 15 January 2024 (2 evaluation rounds)

Entrance exams: Online interview in English

Tuition fee: 57 000 CZK (2 280 EUR) per academic year*

■ SUSTAINABLE USE OF NATURAL RESOURCES

Application period: 12 October 2023 → 15 January 2024 (2 evaluation rounds)

Entrance exams: Online interview in English

Tuition fee: 42 000 CZK (1 680 EUR) per academic year*

*The tuition fee is paid in CZK, so the amount in EUR is variable, based on the exchange rate at the time of the tuition payment (15/11/2023, 1 EUR = 25 CZK).

The Faculty of Forestry and Wood Sciences (FLD) provides high-quality higher education in programmes focused on sustainable forest management in the face of climate change. Programmes focus on the fulfilment of ecosystem services, comprehensive management of wildlife, modern methods of preserving nature, taxidermy, care for greenery in an urbanised environment, using wood as a renewable raw material, and the construction of wooden products and buildings. FLD is also an excellent international scientific-research workplace and emphasises that the research results immediately help in forestry and timber practice.

- FOREST BIOLOGY
- WOOD PROCESSING AND FOREST MACHINERY

Application period: November 2023 → September 2024

Entrance Examinations: An interview in English and scientific discourse in front of the admissions committee

Admissions conditions: The applicant must submit the following essential documents via electronic application: CV, proof of previous university education (master's degree) and scientific intent. Application fee (to the amount of 750 CZK)

Tuition fee: 15 000 CZK (600 EUR) per academic year*

*The tuition fee is paid in CZK, so the amount in EUR is variable, based on the exchange rate at the time of the tuition payment (15/11/2023, 1 EUR = 25 CZK).

The Faculty of Engineering offers a wide range of study programmes in agricultural engineering, transportation and logistics, and the development and testing of machinery. The research topics of the faculty are primarily related to technical sciences with a focus on agricultural technology, robotics, automation, and transport with an emphasis on sustainable development. Examples include the use of robots and drones in agriculture, the construction of photovoltaic systems with increased efficiency, energy and ecological aspects of biomass use, and land transport's environmental impacts on the environment.

Study programmes taught in English in the academic year 2024/2025

Doctoral programme

■ ENGINEERING OF AGRICULTURAL TECHNOLOGICAL SYSTEMS

Application period: 10 November 2023 → 31 March 2024

Entrance exams: Oral entrance exam in English focused on a specialised field related to the selected dissertation topic

Tuition fee: 95 000 CZK (3 800 EUR) per academic year*

*The tuition fee is paid in CZK, so the amount in EUR is variable, based on the exchange rate at the time of the tuition payment (15/11/2023, 1 EUR = 25 CZK).

The Faculty of Tropical AgriSciences of CZU Prague (FTZ) is a unique workplace of its kind in Europe with a sixty-year tradition. It is focused on the issues of agriculture, rural development, and sustainable management of natural resources in tropical areas. Faculty graduates find employment as consultants in international organisations, institutions, or research centres. Thanks to the active support of responsible consumption and fair trade, FTZ received the title of Fairtrade Faculty. The faculty building won as the best project responding to climate change in the Adapterra Awards competition. The facilities and modern laboratories enable students to learn with the possibility of personal growth, including involvement in scientific projects domestically and abroad.

*The tuition fee is paid in CZK, so the amount in EUR is variable, based on the exchange rate at the time of the tuition payment (15/11/2023, 1 EUR = 25 CZK).

The Institute of Education and Communication provides pedagogical education and system education for staff of secondary vocational schools and training institutions. Specifically, it offers study in programmes focused on obtaining a pedagogical education and on career counselling in education. The institute has a richly developed network of workplaces for professional and pedagogical practice. Cooperation with foreign universities and organisations dealing with the training of teachers and counsellors is also essential.

Scholarships

■ CZU Prague does not offer full scholarships as the study programmes are already subsidised by the government to provide affordable tuition fees. However, the university does offer merit and accommodation scholarships. You can find out more about these here.

■ At some faculties, students may also get a tuition reduction based on their grades.

Residence Halls & Refectory

The advantage of the CZU dormitories is their location on the university campus. Prices range from roughly 160 EUR to 270 EUR for one month of standard accommodation, and from 420 EUR to 600 EUR for premium accommodation. CZU also offers housing in three off-campus external residence halls.

Our university refectory (Menza) offers lunch and dinner. You can choose from sweet or savoury, meat or vegetarian dishes, salads, and deserts. Each student can use the subsidy programme and get a meal for a very affordable price.

CZU Farm Estates

The estate comprises 2 800 hectares of farmland. In the animal husbandry programme, the estate manages cattle herds as well as horses, pigs, and poultry. Various methods of agricultural production are applied. The estate is also involved in farm breeding of Eland Antelopes and Guanaco Llamas. Students learn in practice all aspects of crop and animal production. They get to know this place not only during lessons and excursions but also as interns who directly participate in the work of individual centres and farms of the estate.

CZU Winery

The centre, located in a 17th-century fully restored vineyard house, cultivates around 20 hectares of vineyards of quality wine stock. Each year, wines from the CZU production win prestigious prizes at wine exhibits and are a part of the top Czech wine collection. In addition to its own production, the centre is intended for practical teaching of students in several study programmes. Students can also carry out practical experiments here when creating final theses. The centre includes modern classrooms and offers accommodation for students.

CZU Forests

Every year, the school forest establishment organises practical sessions for students who can verify their theoretical knowledge in practice. Students participate in afforestation, cultivation of stands and mining. They are involved in the production process in the centre of ornamental and forest nurseries, in the centre of wood production and the centre of transport handling.

Application procedure

- 1** CHOOSE YOUR STUDY PROGRAMME
- 2** PREPARE DOCUMENTS FOR RECOGNITION OF PREVIOUS EDUCATION
- 3** CHECK SPECIFIC ENTRY REQUIREMENTS AND APPLICATION DEADLINES
- 4** SUBMIT YOUR ONLINE APPLICATION AND THE REQUIRED DOCUMENTS
- 5** PREPARE AND TAKE THE ENTRANCE EXAMS / ONLINE ADMISSION INTERVIEW
- 6** WAIT FOR THE RESULTS AND NOTIFICATION OF ACCEPTANCE
- 7** PAY THE TUITION FEE
- 8** APPLY FOR A VISA
- 9** START ARRANGING YOUR ARRIVAL AND STAY
- 10** WELCOME TO CZU!
